

Sidee ayay u shaqaysaa Silver Diamine Fluoride?

Silver Diamine Fluoride, oo inta badan loo yaqaano "SDF," waa daawaynta ilko oo fudud waxaana inta badan loo isticmaalaa carruurta bolalka ilkaha ku cusub yahay si ay u joojiyaan suuska iyo inay ka dhigaan ilkaha kuwa aan wax dhib ah qabin sida ugu macquulsan.

Ilko xooggan oo aan bolol lahayn
SDF waxay madoobayn doontaa goobaha iliga bolalka ka galayo, taas oo ah markaad ogaato inay shaqaynayso! Bixiyeyaasha ayaa had iyo jeer codsan doona ogolaansho marka hore.

Iyadoo aan loo baahnayn cirbadaha iyo qalabka dhakhtarka iliga ku qodo, SDF waa mid aan xanuun lahayn, degdeg ah, habboon, lana awoodi karo, waxaana ku samayn karo goob bulsho nadiifiyaha ilkaha ama xirfadle kale oo tababaran, American Dental Association waxayna ku talinayaan SDF in loo isticmaalo qaab lagu daaweeyo bolalka ilkaha ee markaas cusub.
